ELECTRICAL EPC PROJECTS

Substation | Distribution | HT & LT Cabling | Feeders

- ◆ Design, drawing, engineering of entire electrical installation.
- ◆ Bill of Material, cable schedule, termination schedule, SLD, switchyard layout, trench layout design and drawings of associated civil work.
- ◆ Preparation of estimate for the work involved.
- ◆ Services for supervision on erection, testing and commissioning.
- ◆ Project coordination and monitoring.

CIVIL EPC PROJECTS

We are the builder as well as the construction manager: we employ craftsmen specializing in everything from concrete to finish carpentry work. This first-hand experience with building allows us to provide an exceptional level of accuracy and expertise in our schedules, and quality control procedures. EPC projects involve Engineering, Procurement and Construction phases and are specific for facilities construction contracts in various industries.

Purusharthy Projects Private Limited is an ISO 9001 : 2015 certified industrial solutions provider company. We are the “A” Class electrical contractor. We have expertise to design fully integrated and customized complete Electrical, Solar, and Civil turnkey projects. We have the prowess to manage turnkey projects of any scale and the much-needed know-how to work within the confines of regulatory policies and vast geographical parameters. We’re constantly looking for new ways to innovate the technology to make accessible to even more people.
